
Just want to thank-you
and your staff for helping me
so much. I know you were
not 100% of this surgery, but
you tried it anyway and it
WORKED! I am so happy not
to have that horrible burning
any more. ☆ You have
given me my life back.

Everyone in the operating
room that day were like my
little angels. And you were
the CEO angel! All the
nurses at hospital were so very
kind to me.

I cant thank you
enough!
